Full Name	Designation / Title	Relevant Experience / Expertise
1		
2		
3		

Provide up to 3 examples of similar past projects that demonstrate your organisation's track record in the gender and climate intersectionality, especially in risk management and implementation capability.

250 words

You may describe the impact generated from these projects, any recognition received, and so forth.

In which country(s)/market(s) is your solution being implemented?

- Afghanistan
- American Samoa
- Armenia
- Australia
- Azerbaijan
- Bangladesh
- Bhutan
- Brunei
- Cambodia
- China
- ...

What focus area(s) within the climate and gender intersection is your organisation working in? Please select all options that apply.

- Supporting women who have been affected by climate change and/or have high climate change vulnerability
- Building up women's climate resiliency
- Enabling Women's participation in the green economy
- Advocacy for inclusion of women in green initiatives
- Others

What challenge/s within the Climate x Gender Intersection are you addressing?

250 words

As a guide, consider including: - Explain how the adverse effects of climate change exacerbate gender inequality - The detrimental outcomes if this problem goes unaddressed

Can you describe the underlying factors contributing to these challenges?

150 words

What is your solution to address the identified problem?

250 words

As a guide, consider including: - how your solution works at the intersection of Climate and Gender - if your solution is designed to meet specific needs of women during climate-induced disasters (e.g. displacement, resource scarcity, etc) - if your solution ensures equitable access to climate technologies for women

What is the stage of development of your solution?

- Idea

- Pilot
- Roll-out/Growth
- Mature

How does your solution fit into the broader landscape of similar solutions that exist already? 150 words

i.e. how would you bring additional value over and above other solutions and interventions?

Does your solution employ participatory approaches? If so, please explain how. 150 words

Note: - Participatory approaches refers to engaging your end-beneficiaries in the process of informing and designing the solution that will eventually be delivered to them.

Briefly describe the expected outcomes of your solution. 150 words

As a guide, consider including: - The change you hope to see as a result of your intervention and relevant timeframe - Realistic outcomes of your solution

Please upload your solution's Theory of Change to support the outcomes indicated above. (optional)

Please describe the key beneficiary groups/communities, their needs in detail and how your solution addresses these needs during the grant period. 200 words

As a guide, consider including: - If your key beneficiary groups/communities are considered marginalised and/or vulnerable, and if yes, the context of marginalisation/vulnerability

Briefly describe how you intend to reach your target end beneficiaries 150 words

Is your solution linked to advocating for gender-responsive climate policies?

- Yes
- No

What resources, expertise and/or partnerships do you have (or plan to have) in place to ensure a successful implementation? 150 words

Either internal resources or via established or planned partnerships

What are the risks involved in your implementation? What steps are you taking to mitigate these risks? 150 words

Describe the sustainability plan for your solution.

250 words

This may include any existing partnerships your organisation has or is pursuing. You may also outline your organisation's revenue strategy or business model beyond the grant period.

What is the scale-up plan for your solution?

150 words

Please provide a project timeline/roadmap for the next 3 years.

Please include any other information you think we should be aware of in reviewing your application.

(optional) 100 words

I confirm that my team members and I have no conflicts of interest with AVPN which could affect the objectivity in evaluating your application.

Yes, I confirm that my team members and I have no conflict of interests with AVPN.

No, my team members and I have a conflict of interests with AVPN.

Note: - A conflict of interest is considered to arise where a staff of AVPN or his/her family member, relative or close personal friend has or may have a vested interest (personal and/or business) in your organisation which could reasonably be seen as having inappropriate influence over the decision making of the grant or any grant entrants or applications.

I/We confirm that I/We have read and understood AVPN's Data Protection Policy and obtained necessary consent or authorization for disclosing the submissions to the grant (including but not limited to representative's name, designation, contact information) to AVPN and other partners of the grant.

I/We give consent or have obtained necessary consent or authorization to AVPN and other partners of the grant that my organisational and personal data (including but not limited to the representatives' name, designation, contact information), trademark and materials submitted in this grant application can be used for marketing and publicity purposes and for making introductions to relevant stakeholders to increase the flow of financial, human and intellectual capital towards my organisation.

If you would like to withdraw your consent, please contact our AVPN Data Protection Officer at technology@avpn.asia.
